3M™ QTII
Cold Shrink Single Core Indoor / Outdoor Terminations
95-EB Series for 26/45(52) kV Cables

Application
3M™ QTII Cold Shrink Series Kits are designed for 52kV Umax voltage class, Single core polymeric Copper Wire Screened power cable systems according to HD 620 (IEC 60502).

Kit Content
3M™ 95-EB Series Terminations include the Cold Shrink QTII Silicone Termination body with integrated stress control device, and silicone elastomeric insulation. Skirts are integrated for easier & faster installation. Silicone tape is included for moisture sealing.

Product Features
- The versatile design of the prefabricated one-piece cold shrink termination body allows installation on a wide range of cable sizes and types and a fast and easy installation at temperatures ranging from - 20°C to + 50°C.
- No heat or flame is needed during installation.
- Solderless earth connection using Constant Force springs.
- No special tools needed during installation.

Installation
3M™ Cold Shrink technology ensures quick, easy and safe installation of the QTII Termination Body by pulling and unwinding the plastic support core in counter clockwise direction. Use of special tools is not necessary. Detailed instructions for installing the 3M™ QTII Series Terminations are included in each kit.

Product Identification
3M™ QTII Series Termination kits are marked with supplier name, cable cross section ranges, voltage class and cable type, storage conditions and manufacturing codes for product traceability.

Performance Tests
3M™ QTII 95-EB Series Terminations meet and exceed the requirements of the European standard CENELEC HD 629.1 as well as IEC 60502-4. See Test Report No. TR003376-1

Storage
The shelf life of 3M™ QTII Series Terminations is specified as 3 years. Temperature: - 40°C to +50°C.

**Product Stewardship**

3M has a fundamental concern for all who make, distribute and use its products, and for the environment in which we live. This concern is the basis of our philosophy and policies by which we assess the health and environmental information on our products and then take the appropriate steps to protect employee, the public health and the environment.

**Customer Notice**

3M encourages its customers and potential users of 3M products to review their applications for such products from the standpoint of human health and environmental quality. To help ensure that 3M products are not used in ways for which they were not intended or tested. 3M personnel are available to assist customers in dealing with ecological and product safety considerations. Your 3M sales representative can arrange for the proper contacts.

**Regulatory Status**

3M™ QTII Series Terminations are not subject of the European WEEE and RoHS Directives but meet their requirements.
