

General Purpose Duct is an integrally socketed duct manufactured from PVCu. It is a cost-effective alternative to higher specification systems for use in light and medium duty applications. The General Purpose Duct system also includes a range of bends, junctions, hockey sticks and end caps. The system is manufactured to traditional accepted dimensions, but does not meet the requirements of BS EN 61386-24:2010. General Purpose Duct is not suitable for Highways England applications and will require a better standard of installation than more robust systems for successful performance.

Applications

For the cable protection of power and other utility ducts when no approval is required.

Key benefits

- Cost-effective
- For light and medium duty applications
- Full range of bends, junctions, hockey sticks and end caps

GENERAL PURPOSE HOCKEY STICKS, JUNCTIONS, END CAPS
