

CG-05-

Electrical insulating rubber electrical gloves class 00

Application:

- Wellfit finish: soft, supple, durable and ergonomic with high flexibility for an easy work.
- Convenient to any hand shape.
- Gloves without extra-mechanical protection; to be worn with leather over-gloves **CG-981** to ensure full mechanical protection.

Features:

- Electrical insulating gloves, class 00 (500 V AC, 750 V DC). Length: 360 mm.
- Cut edge.
- Material: natural color latex ensuring highest dielectric features.
- Traceability through flashcode on color-coded label. The color is according to the class.

Ref.	Functionality	Protection	Operating Voltage	
	Size	Electrical Protection Class	AC	DC
CG-05-A	8	00	500 V	750 V
CG-05-B	9	–	500 V	750 V
CG-05-C	10	–	500 V	750 V
CG-05-D	11	–	500 V	750 V
