

3M Science. Applied to Life.™

3M™ Cable Cleaning and Degreasing Wipes

Product Description

3M™ Cable Cleaning/Degreasing Wipes are designed specifically to remove contaminants such as grease, oil, sealants and cable jelly from switchgear and cables. The product will remove even heavy or old deposits without hazard to substrates or insulation materials.

Typical Applications

- Cable Cleaning prior to jointing
- Removal of protective grease and jelly from switchgear
- Sub-station cleaning and maintenance
- PCB Cleaning
- Degreasing overhead power lines

Application Methods

Wipe over surface to be cleaned.

Gloves are recommended for skin protection, please refer to SDS for further details.

Key Product Features

Low Lint product – leaves no fibres behind, and will not break down like a paper-based wipe

High dielectric strength – 50kV

No chlorine, non-aromatic product

Compatible with circuit boards, connectors, electrical equipment, and cables

For all heavy-duty applications, effective on both general grease and oil, as well as protective coatings

No deleterious effects on cable insulation

Product Details

Available in pack sizes of 75, 250, or 500 wipes

Shelf Life

3M™ Cable Cleaning/Degreasing Wipes have a 12 month shelf life. Recommended storage conditions are between 10-40°C with humidity level of <75%, in the original packaging.

Safety and Handling

3M provides its customers with a product specific Material Safety Data Sheet (MSDS) to cover potential health effects, safe handling, storage, use and disposal information. 3M strongly encourages its customers to review the MSDS on its products prior to their use.

Product Stewardship

3M has a fundamental concern for all who make, distribute and use its products, and for the environment in which we live. This concern is the basis of our philosophy and policies by which we assess the health and environmental information on our products and then take the appropriate steps to protect employee, the public health and the environment.

Customer Notice

3M encourages its customers and potential users of 3M products to review their applications for such products from the standpoint of human health and environmental quality. To help ensure that 3M products are not used in ways for which they were not intended or tested. 3M personnel are available to assist customers in dealing with ecological and product safety considerations.

Regulatory Status

3M™ Cable Cleaning/Degreasing Wipes are compliant with EU regulation 1907/2007/EC (REACH)

Important Notice: Before using this product, you must evaluate it and determine if it is suitable for your intended application. You assume all risks and liability associated with such use. All statements, technical information, and recommendations related to 3M's products are based on information believed to be reliable, but the accuracy or completeness is not guaranteed. Before using this product, you must evaluate it and determine if it is suitable for your intended application. You assume all risks and liability associated with such use. Any statements related to the product which are not contained in 3M's current publications, or any contrary statements contained on your purchase order shall have no force or effect unless expressly agreed upon, in writing, by an authorized officer of 3M.

Warranty; Limited Remedy; Limited Liability. This product will be free from defects in material and manufacture at the time of purchase. 3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. If this product is defective within the warranty period stated above, your exclusive remedy shall be, at 3M's option, to replace or repair the 3M product or refund the purchase price of the 3M product. Except where prohibited by law, 3M will not be liable for any loss or damage arising from this 3M product, whether direct, indirect, special, incidental or consequential regardless of the legal theory asserted.
