

HIGH VOLTAGE STALK CONNECTORS

MT-C

MT-C series connectors are designed for high voltage applications up to 33 kV. They are manufactured from high purity copper, annealed and tin plated. The extended barrel enhances both electrical and mechanical performance. The stalk or pin makes these connectors ideal for terminating conductors into contact blocks. Appropriate crimping tools and dies are shown in details on page 210.

| Conductor Size sqmm | Type | Dimensions in. | | | | Quantity Box/Bag | Hydraulic Tools | | | |
|------------------------|---------------|----------------|------|------|------|---------------------|---|--|--|--|
