

Premolded screened separable cable connector

CSE-A 12630, CSE-A 24630

CSE-A 36630, CSE-A 42630

Application areas

Premolded screened separable connector for XLPE- and EPR-insulated 1- or 3-core cables with Al- or Cu-conductors for 12 –42 kV. Can be installed both indoors and outdoors.

Fits standard bushings of outer cone type according to EN 50181. Connector with rated current:

- 630 A: Interface C1 with bolt M16.
- 1250 A: Interface C2 with bolt M16.

Standard

Meets the requirements of:

- CENELEC, HD 629.1 S2

Design

CSE-A is manufactured in rubber with three layers; a conductive inner layer, an insulation layer and a conductive outer layer, that are vulcanized together for the best possible interface between the layers.

The cable connector includes both a capacitive test point with protection and an integrated earthing wire.

- Delivered in 3-phase kits, complete with cable lugs, bolt connection and stress grading adapter, designed to ensure a reliable installation.

Note:

- For 3-core cables with common Cu-screen wires, a screen separation kit or a branch seal kit must be used. To be ordered separately.

Always select products by Insulation diameter.
