

MV-CONNEX T-Joint, size 2 up to 42 kV, soilproof

Single-pole, metal clad, for outdoor use, soil resistant.

Using this T-joint and the CONNEX coupling connector, switching stations that are equipped with CONNEX-bushings can later be expanded to become double connections. In addition, a plug-in cable branch wire can also be realised.

The single-pole T-joint is provided wired ready for connection. The CONNEX contact bushings are integrated in the soil-resistant insulating bodies.

The connection is established by inserting the CONNEX separable connector.

Cast shieldings additionally guarantee a short-circuit-resistant cable shielding connection.

In the event of network modifications, the underground T-joints can be replaced by CONNEX cable joints.

Picture may vary.

Technical Data

Article no.		827 221 002
Size		2
Max. system voltage	U_m (kV)	42
Design		branching
Nominal current	I_N (A)	800
Application		soilproof
Weight	(kg)	17,6
