Aluminium hook ladder

See online
technical sheet

/ Use

Straight ladder for linesmen, with a pair of hooks and safety chains.

The hooks fixed to the ladder uprights are also held by a steel cable going through the entire length of the uprights.

This new system offers full safety. Vertical or horizontal use.

/ Technical specifications

High-strength rectangular tube uprights.

Ø 26 mm rungs, serrated, anti-slip.

Rung distance: 25 cm.

Ø 35 mm hooks

Hanging Ø : 250 mm.

Strength : 390 kg.

Safe working load : 150 kg max.

On request, we can supply ladders in 5 and 6 metres.

Please contact us for replacement chains
