Wooden swingback stepladder

See online  
technical sheet

## / Standards

EN 131

## / Use

The top shelf of this ladder may not be considered to be a step.

## / Technical specifications

The uprights are made of top-quality light Canadian Western Hemlock, with wraparound anti-slip pads.  
The steps are made of beech, with a comfortable 250 mm distance.  
The ladder is impregnated with water-repellent and fungicide.  
Safe working load : 150 kg max.

### Advantages

Wood is a non-conducting material that is appreciated for its electrical insulation.  
The ladder is assembled mechanically, allowing all possible repairs in the factory.  
The ladder has 80 mm steps for more comfort.
