

Tech SPECS

WedgeIt™
HAND SAFETY TOOL

HEAD DESIGN

- Polycarbonate wedge head engineered for durability in sheet separation tasks
- Optimized incline geometry separates stacked sheet metal without damaging the metal surface
- Flat top ledge keeps hands away from sharp edges and pinch points while maintaining stable separation of materials
- Replaceable head design extends tool life; simple replacement using Phillips-head screwdriver

BODY & HANDLE DESIGN

- Integrated hand guard keeps hands clear of pinch-point hazards
- Tool length promotes proper upright working posture for improved ergonomics
- High-visibility orange finish improves visibility in industrial environments
- Ergonomic D-Handle provides strong push leverage with reduced strain
